Dear Bob -

Mr. Dobbin (IRS) has called again and given us a deadline of August 15th for the information he needs on our "change of purpose".

On that date his file will be passed on to the next in line without the needed information.

What he is trying to do is keep our status as a Charitable Organization exempt from tax -he feels that unless his file can include the "change of purpose" information there will be questions raised. Possibly the status will be changed when the file goes to the next office.
