Dear Joan -

Hate to keep buggin' you - but - the enclosed statement from Riverhead Building Supply has just come to me. It shows the bill rendered of \$55.90 for March charges (which I have already sent to you) - plus charges for April and a late charge of 83 cents. The fact that I work for Riverhead Building and the bill bears my home address makes it a bit embarrassing. The Neighborhood House account had been deleted from the read-out sheet because we had not bought anything for quite some time and I had them open the account again. Please pay the total bill of \$71.29.

Also - on February 9, 1982 I sent you a bill of \$39.60 covering money for postage that I had paid out from July 1980 - February 1982 and I have not received the check for that. Before too long I will have another postage bill to cover postage for two meetings - notices sent out for the Prime Ribs Dinner - and acknowledging the memorial gifts that have come in for Mrs. Carr. I will appreciate having the check covering the first postage bill before another one is sent to you.

Thanks much,

Chris
