

Mrs Hiram S. Miller -
Gardiner Island.

Now, dear Mrs Miller,
Dr. Edwards, by telephorse,
reports with steady, slow
slow, improvement in
Hiram that I have ventured
to have the yacht come
on here to Whitstone.

I should leave her still
at Greenport if I thought
that, by so doing, any
good might be accom-
plished in taking down
people or things - i.e.,
sitten courses &c. or
remedies or even foots
- and I will send her

back at once, and I would
come in for myself, if
Ie could be of any assistance.

All you need do is to
telephone to Inthill
and Thorne at Greenport
and they - (or Charles Thorne)
would telephone on to you.

Or perhaps you could
telephone directly to me
- my number at Whitestone
where I am each morning
and evening is: -

"1197 Flushing" - and
my number at my
office in New York,
where I am in the
daytime, or which would

he tells you and on the 21st of May he is:
"4360 John" - i.e. in 1814, City

Now that in 1814 you had begun,
but that it will go on steadily, that
I suppose it will be done - I don't see
why he is not, as he grows stronger, not
to let him be for good, for fear of a collapse
- quiet and patience and gentleness
- for good - will be necessary.

If you need any money, or a reward,
or all the other expenses please let me
know - or if there is any thing else in
which I can assist - do not hesitate

To call upon me -
From Dover and I hope to
hear nothing but good news from you.

Yours very truly
F. Aug. Schermerhorn
