

FABULOUS FOTOS

Mr. Clarence E. King, Jr. sent our past president these lovely photos. This is truly a fabulous machine and I am so glad he chose to share these photos with us.

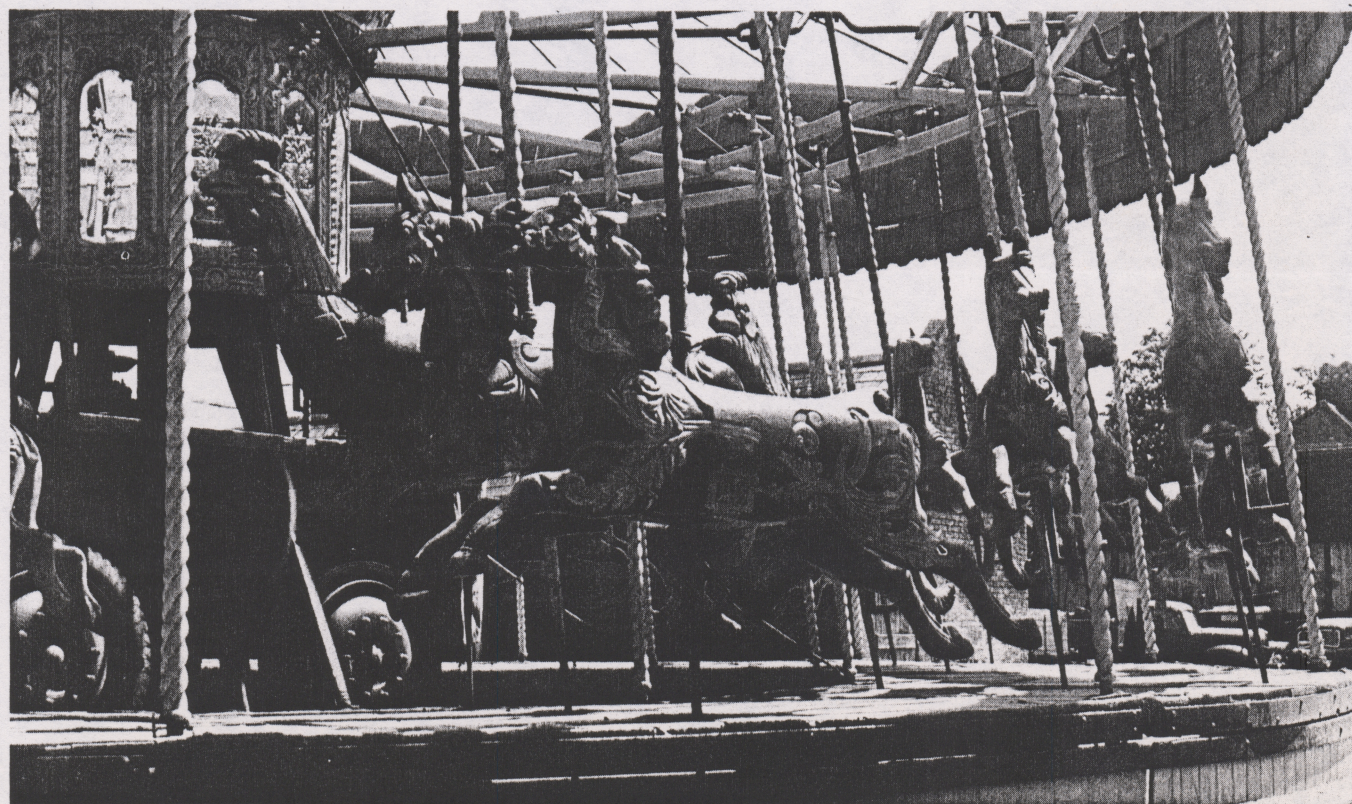

Mr. King is mentioned in his letter (letterhead reading C.E. KING & SONS, INC.; Canvas Awnings — Marine Boat Covers — est. 1948) that this machine was stored at Home

Sweet Home Moving & Storage Co. in 1955. While it was there he made the canvas cover for the mechanics.

He also mentioned the carousel was to be installed on the Dowling estate, but for reasons unknown to him were not. He since learned that the carousel was moved to Sterling Forrest in the Catskill Mountain region on New York state.
